

I received prompt service (my appts were set in a timely manner, my tutor was on time, etc.).

My tutor helped me by providing or clarifying information.

The tutor listens and responds well to my questions or concerns.

The tutor helped me develop my skills in the subject area (ie. learning techniques, explained things in different ways, etc.).

The environment was conducive to learning (supplies, space, noise, etc.).

My tutor referenced or inquired about my learning preferences during the appointment.

The tutor was patient and attentive.

I feel more confident about my knowledge of this subject than when I arrived.

I am satisfied with the Tutoring Center's hours of operation and my tutor's availability.

My tutor treated me with respect and courtesy.

I will visit this Tutoring Center again and will recommend it to my friends who need help.
